FEES (excl. VAT)

Initial Fee	Coronation: 0.00%
Annual Management Fee - performance related*	Minimum - standard: 1.25% Minimum - discounted: 0.75% Maximum: 2.75% Sharing Rate: 10.00%

* A portion of Coronation's annual management fee may be paid to administration platforms like LISP's as a payment for administrative and distribution services.

Total Expense Ratio (TER)² 1.97% per annum, which includes a performance fee of 0.65%

When applicable, Coronation shares in the fund performance above the benchmark. This performance fee is accrued daily, based on performance over a rolling 12-month period, and paid to Coronation monthly. If the fund produces a positive return in line with or below the benchmark, the standard minimum fee will be levied. If the fund produces a negative return over a rolling 12-month period, the discounted minimum fee applies. For further information regarding our fee structure please contact us or visit our website.

¹Benchmark Methodology - From January 2009 CPIX was replaced with a newly reweighted and rebased CPI. The benchmark is calculated using a combination of the official month-to-month CPIX numbers pre-January 2009 and the new CPI from January 2009.

Advice Costs (excluding VAT)

- Initial and ongoing advice fees may be facilitated on agreement between the Client and Financial Advisor.
- An initial advice fee may be negotiated to a maximum of 3% and is applied to each contribution and deducted before investment is made.
- Ongoing advice fees may be negotiated to a maximum of 1% per annum (if initial advice fee greater than 1.5% is selected, then the maximum annual advice fee is 0.5%), charged by way of unit reduction and paid to the Financial Advisor monthly in arrears. This annual advice fee is not part of the normal annual management fee as disclosed above.
- Where commission and incentives are paid, these are included in the overall costs.

Unit trusts should be considered a medium- to long-term investment. The value of units may go down as well as up. Past performance is not necessarily an indication of future performance. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down. Instructions must reach the Management Company before 2pm (12pm for the Money Market Fund) to ensure same day value. Fund valuations take place at approximately 15h00 each business day and forward pricing is used. Coronation is a Full member of the Association for Savings & Investment SA (ASISA). ¹Performance is quoted from Morningstar as at 30 April 2010 for a lump sum investment using Class A NAV prices with income distributions reinvested. Performance figures are quoted after the deduction of all costs incurred within the fund. ²The TER is calculated as a percentage of the average NAV of the portfolio incurred as charges, levies and fees in the management of the portfolio for a rolling 12-month period to end March 2010, as well as the actual performance fee incurred over the 12 months to end March 2010. A higher TER ratio does not necessarily imply a poor return nor does a low TER imply a good return. The current disclosed TER cannot be regarded as an indication of future TER's.
