Coronation Global Equity Select (ZAR) Feeder Fund

Fund information for the A Class as at 31 October 2026

CORONATION
TRUST IS EARNED™

Risk profile: Aggressive

Short-term capital stability — Long-term real growth

Maximum growth/minimum income exposures

Growth assets: **100%** Income Assets: **0%**

Fund Objective

Aims to give investors access to the best opportunities in global equity markets and outperform the MSCI All Country World Index over all rolling five-year periods.

What does the fund invest in?

A feeder fund that invests in the Coronation Global Equity Select Fund. Invests in shares listed on equity markets worldwide, with at least 70% in developed markets and up to 30% in emerging markets. Intends to remain fully invested in shares, with up to 20% permitted in cash and bonds. May use derivatives for efficient portfolio management.

Investor Profile

Suited to wealth-building investors who want full exposure to global (ex-SA) listed equities; accept the possibility of short-term underperformance in pursuit of superior long-term gains; hold other investments and want global equity exposure as part of a diversified portfolio; and do not need current income.

Time Horizon: 10 years +

Fund Manager/s: Neil Padoa and Chris Cheetham

Launch Date: 30 April 2015

Fund Size: R1.17 billion

NAV: 262.5 cents

ASISA Fund Category: Global – Equity – General

Benchmark: MSCI All Country World Net Return Index (ZAR)

Annual management fee: 1.25% excl. VAT

Income Distribution: Bi-annually (Mar/Sep)

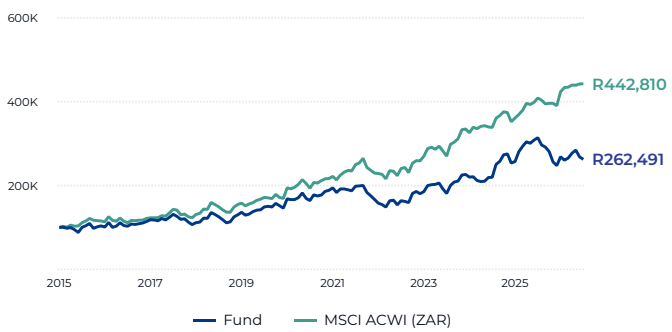

Investment minimum: R 5 000 lump sum or R500 monthly debit order

Bloomberg Code: CORGESA

ISIN Code: ZAE000202115

JSE Code: CGEFA

Important information that should be considered before investing in the fund

Unit trusts are medium- to long-term investments. Capital is not guaranteed and the value of your investment can rise or fall. Past performance is not a reliable indicator of future results.

This fund may invest up to 100% in foreign assets, which introduces currency, political, settlement, tax, reporting and liquidity risks that may differ from comparable domestic investments. Exchange rate movements can affect the value of these holdings. Top 10 holdings are shown on a look-through basis. As a feeder fund, it invests in a single underlying collective investment scheme, which levies its own charges and may result in a higher overall fee structure.

Coronation reserves the right to close the fund to new investors if we deem it necessary to limit further inflows in order for it to be managed in accordance with its mandate. Unit trusts are allowed to engage in scrip lending and borrowing.

Coronation Management Company (RF) (Pty) Ltd is an FSCA-approved collective investment schemes manager. Notice to investors: Aimee Rhoda will join the board of Coronation Management Company (RF) (Pty) Ltd as an additional director from 31 Dec 2026 (FSCA Conduct Standard 3 of 2025). Astrid Ludin & Raymond Berelowitz will also be joining the board as independent non-executive directors pending FSCA approval. This does not affect how the fund is managed or its fees. As always, investors may withdraw at no additional cost. Portfolio management is delegated to Coronation Investment Management International (Pty) Ltd (FSP 45646). Standard Chartered Bank is trustee and custodian of the fund (www.sc.com/za; 011-217 6600). Coronation is a full member of the Association for Savings & Investment SA (ASISA).

How are units priced and at which price will my transaction be executed?

Units are traded at ruling prices that are set daily at approximately 15h00 (17h00 at month-end, JSE close) using forward pricing. Instructions must reach the Management Company before 14h00 (12h00 for the Money Market and Corporate Money Market Funds) to ensure same-day value. In extraordinary circumstances, withdrawals may be delayed with the consent of the trustees, in the interest of all investors. Where trading in certain underlying assets is suspended, those assets may be side-pocketed, allowing normal liquidity to continue on the remainder of the fund. If the fund faces excessive withdrawals, affected withdrawals may be ring-fenced — that is, the delayed sale of those assets is separated from the rest of the fund to avoid a large withdrawal wave forcing asset sales at prices that would disadvantage remaining investors. Distributions are quoted in Cents Per Unit (CPU)

How was the performance information included in this fact sheet calculated?

Performance is calculated by Coronation at month-end for a lump-sum investment using Class A NAV prices with income reinvested. Data is sourced from Morningstar. All figures are shown on an after-fees basis. Cumulative figures represent the total return earned over the period shown; annualised figures represent the geometric average annual return and are indicated by '(p.a.)'. Year-to-date and periods shorter than one year are not annualised. Individual investor returns may differ due to actual investment date, timing of distribution reinvestment and applicable dividend withholding tax.

The benchmark used for performance comparison purposes is the peer group of the master offshore fund (Morningstar EAA Fund Global Large-Cap Blend Equity), converted to ZAR.

What costs can I expect to pay?

The annual management fee is 1.25%. Of the annual fee, 0.40% is collected at the feeder fund level and is subject to VAT, while the balance of the fee is collected in the master fund.

Fund expenses include trading, custody and audit charges. All performance figures are shown after deduction of all fees and costs. No fees apply to access or withdraw from the fund.

What is the total expense ratio (TER) and transaction costs (TC)?

The TER is calculated as a percentage of average net asset value incurred as charges, levies and fees over the period shown. The TER of any underlying fund is included in fund expenses, but trading and implementation costs of underlying funds are excluded. A higher TER does not imply poor returns, nor does a lower TER imply good returns. The current TER may not be an accurate indication of future TERs. The 1-year TER covers the 12 months to end of the previous financial year; the 3-year TER covers a rolling 36-month period to the last available quarter end (March, June, September or December).

Transaction costs are a necessary cost of managing the fund and affect returns. They should not be assessed in isolation, as returns are influenced by many factors including market performance, fund type, investment decisions and the TER. The Total Investment Charge is the sum of the TER and transaction costs.

Where can I find additional information?

Daily fund prices, brochures, application forms, the annual report and a schedule of fees and charges are available at www.coronation.com.

Coronation does not provide financial advice. If you use a financial adviser, fees are agreed directly between you and the adviser. For more information, contact your platform (Linked Investment Service Provider or Life Assurance Provider).
