Coronation Bond Fund

Fund information for the R Class as at 31 October 2026

CORONATION
TRUST IS EARNED™

Risk profile: Moderate

Short-term capital stability — Long-term real growth

Maximum growth/minimum income exposures

Growth assets: **0%** Income Assets: **100%**

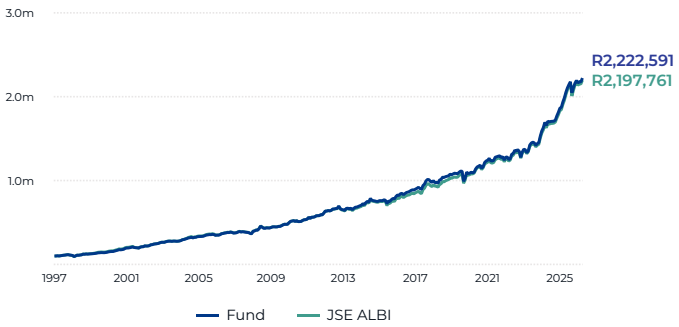

Fund Objective
Aims to maximise returns from a diversified, primarily South African bond portfolio and outperform the FTSE/JSE All Bond Index over the long term.

What does the fund invest in?
Invests in fixed-income instruments issued by governments, parastatals and corporates, as well as cash. Offshore exposure is typically limited to 10%. May use derivatives for efficient portfolio management.

Investor Profile
Suited to investors who want an actively managed bond fund or need dedicated bond exposure as part of a broader, diversified portfolio.

Time Horizon: 3 years +
Fund Manager/s: Nishan Maharaj, Seamus Vasey and Steve Janson
Launch Date: 01 August 1997
Fund Size: R6.90 billion
NAV: 1605.41 cents
ASISA Fund Category: South African - Interest Bearing - Variable Term
Benchmark: FTSE/JSE All Bond Index
Annual management fee: 0.75% excl. VAT
Income Distribution: Bi-annually (Mar/Sep)
Investment minimum: R 5 000 lump sum or R500 monthly debit order
Bloomberg Code: CORSPBD
ISIN Code: ZAE000019790
JSE Code: CNSB

Important information that should be considered before investing in the fund

Unit trusts are medium- to long-term investments. Capital is not guaranteed and the value of your investment can rise or fall. Past performance is not a reliable indicator of future results.

This fund may invest up to 10% in foreign assets, which introduces currency, political, settlement, tax, reporting and liquidity risks that may differ from comparable domestic investments. Exchange rate movements can affect the value of these holdings. Asset allocation by issuer type and top 5 issuer exposures are not shown on a look-through basis. The yield is calculated by dividing the total interest and income receivable across all fund instruments by the net asset value, expressed as a nominal annual rate. It provides an approximate indication of the yield available at the reporting date; actual returns may differ due to changes in market values, interest rates and costs. The yield is current and calculated as at the MDD reporting date.

Coronation reserves the right to close the fund to new investors if we deem it necessary to limit further inflows in order for it to be managed in accordance with its mandate. Unit trusts are allowed to engage in scrip lending and borrowing.

Coronation Management Company (RF) (Pty) Ltd is an FSCA-approved collective investment schemes manager. Notice to investors: Aimee Rhoda will join the board of Coronation Management Company (RF) (Pty) Ltd as an additional director from 31 Dec 2026 (FSCA Conduct Standard 3 of 2025). Astrid Ludin & Raymond Berelowitz will also be joining the board as independent non-executive directors pending FSCA approval. This does not affect how the fund is managed or its fees. As always, investors may withdraw at no additional cost. Portfolio management is delegated to Coronation Asset Management (Pty) Ltd (FSP 548). Standard Chartered Bank is trustee and custodian of the fund (www.sc.com/za; 011-217 6600). Coronation is a full member of the Association for Savings & Investment SA (ASISA).

How are units priced and at which price will my transaction be executed?

Units are traded at ruling prices that are set daily at approximately 15h00 (17h00 at month-end, JSE close) using forward pricing. Instructions must reach the Management Company before 14h00 (12h00 for the Money Market and Corporate Money Market Funds) to ensure same-day value. In extraordinary circumstances, withdrawals may be delayed with the consent of the trustees, in the interest of all investors. Where trading in certain underlying assets is suspended, those assets may be side-pocketed, allowing normal liquidity to continue on the remainder of the fund. If the fund faces excessive withdrawals, affected withdrawals may be ring-fenced — that is, the delayed sale of those assets is separated from the rest of the fund to avoid a large withdrawal wave forcing asset sales at prices that would disadvantage remaining investors. Distributions are quoted in Cents Per Unit (CPU)

How was the performance information included in this fact sheet calculated?

Performance is calculated by Coronation at month-end for a lump-sum investment using Class R NAV prices with income reinvested. Data is sourced from Morningstar. All figures are shown on an after-fees basis. Cumulative figures represent the total return earned over the period shown; annualised figures represent the geometric average annual return and are indicated by '(p.a.)'. Year-to-date and periods shorter than one year are not annualised. Individual investor returns may differ due to actual investment date, timing of distribution reinvestment and applicable dividend withholding tax.

What costs can I expect to pay?

The annual management fee is 0.75%.

Fund expenses include trading, custody and audit charges. All performance figures are shown after deduction of all fees and costs. No fees apply to access or withdraw from the fund.

What is the total expense ratio (TER) and transaction costs (TC)?

The TER is calculated as a percentage of average net asset value incurred as charges, levies and fees over the period shown. The TER of any underlying fund is included in fund expenses, but trading and implementation costs of underlying funds are excluded. A higher TER does not imply poor returns, nor does a lower TER imply good returns. The current TER may not be an accurate indication of future TERs. The 1-year TER covers the 12 months to end of the previous financial year; the 3-year TER covers a rolling 36-month period to the last available quarter end (March, June, September or December).

Transaction costs are a necessary cost of managing the fund and affect returns. They should not be assessed in isolation, as returns are influenced by many factors including market performance, fund type, investment decisions and the TER. The Total Investment Charge is the sum of the TER and transaction costs.

Where can I find additional information?

Daily fund prices, brochures, application forms, the annual report and a schedule of fees and charges are available at www.coronation.com.

Coronation does not provide financial advice. If you use a financial adviser, fees are agreed directly between you and the adviser. For more information, contact your platform (Linked Investment Service Provider or Life Assurance Provider).
