Coronation Global Emerging Markets Fund

Fund information for the A Class as at 31 October 2026

CORONATION
TRUST IS EARNED™

Risk profile: Aggressive

Short-term capital stability — Long-term real growth

Maximum growth/minimum income exposures

Growth assets: **100%** Income Assets: **0%**

Fund Objective

Aims to give investors access to the best opportunities in emerging equity markets and outperform the MSCI Emerging Markets Index over all rolling five-year periods.

What does the fund invest in?

Invests in shares of companies based in, or deriving significant revenue from, emerging economies. Fully invested in shares at all times. May use derivatives for efficient portfolio management.

Investor Profile

Suited to wealth-building investors who are comfortable with full equity exposure to emerging markets; accept short-term losses in pursuit of superior long-term gains; hold other investments and want emerging market exposure as part of a diversified portfolio; and do not need current income.

Important information that should be considered before investing in the fund

Unit trusts are medium- to long-term investments. Capital is not guaranteed and the value of your investment can rise or fall. Past performance is not a reliable indicator of future results.

This fund may invest up to 100% in foreign assets, which introduces currency, political, settlement, tax, reporting and liquidity risks that may differ from comparable domestic investments. Exchange rate movements can affect the value of these holdings.

Coronation reserves the right to close the fund to new investors if we deem it necessary to limit further inflows in order for it to be managed in accordance with its mandate. Unit trusts are allowed to engage in scrip lending and borrowing.

Coronation Global Fund Managers (Ireland) Limited is authorised and regulated by the Central Bank of Ireland. The fund is approved under section 65 of the Collective Investment Schemes Control Act. Portfolio management is delegated to Coronation Investment Management International (Pty) Ltd (FSP 45646) and Coronation International Limited. JP Morgan SE (Dublin Branch) is the fund's trustee and custodian (www.jpmorgan.com; +353 1 612 4000). Coronation is a full member of the Association for Savings & Investment SA (ASISA).

How are units priced and at which price will my transaction be executed?

Units are traded, using forward pricing, at ruling prices that are set daily using the market closing prices of the assets held in the portfolio. Instructions must reach Coronation before 12h00 (SA Time) to ensure the value of the same business day. You can expect to receive withdrawal payments three to four business days after the dealing day. Large investments or redemptions (exceeding 5% of fund value) may be subject to an anti-dilution levy to defray dealing costs and expenses. This levy, where applicable, is applied fully for the benefit of the fund. Income is not distributed and is reflected in the fund's NAV.

How was the performance information included in this fact sheet calculated?

Performance is calculated by Coronation at month-end for a lump-sum investment using Class A NAV prices. Class A NAV prices were used for the period prior to the launch of Class B. Data is sourced from Morningstar. All figures are shown on an after-fees basis. Cumulative figures represent the total return earned over the period shown; annualised figures represent the geometric average annual return and are indicated by '(p.a.)'. Year-to-date and periods shorter than one year are not annualised. Individual investor returns may differ due to actual investment date and applicable dividend withholding tax.

What costs can I expect to pay?

An annual fee of 1.25% is payable.

Fund expenses incurred in the fund include fees payable to unconnected international fund managers on a portion of assets situated offshore as well as trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs. We do not charge fees to access or withdraw from the fund.

What is the total expense ratio (TER) and transaction costs (TC)?

The TER is calculated as a percentage of average net asset value incurred as charges, levies and fees over the period shown. The TER of any underlying fund is included in fund expenses, but trading and implementation costs of underlying funds are excluded. A higher TER does not imply poor returns, nor does a lower TER imply good returns. The current TER may not be an accurate indication of future TERs. The 1-year TER covers the 12 months to end of the previous financial year; the 3-year TER covers a rolling 36-month period to the last available quarter end (March, June, September or December).

Transaction costs are a necessary cost of managing the fund and affect returns. They should not be assessed in isolation, as returns are influenced by many factors including market performance, fund type, investment decisions and the TER. The Total Investment Charge is the sum of the TER and transaction costs.

Where can I find additional information?

Daily fund prices, brochures, application forms and a schedule of fees and charges are available at www.coronation.com. You will also find additional information on the considerations pertinent to investing in a fund denominated in a foreign currency and domiciled in an offshore jurisdiction. The Prospectus of Coronation Global Opportunities Fund and Fund KIID can be sourced on the following link: https://www.coronation.com/en/institutional/ucits-fund-library
