

INVESTMENT OBJECTIVE

The investment objective of the Coronation Presidio Hedge Fund is to generate long-term, superior risk-adjusted returns from investing primarily in South African listed equities. The fund utilises a traditional long/short equity hedge fund structure with net exposure typically between 40% and 70% and moderate use of leverage with gross exposure in the 120% - 180% range. The fund invests in equities, both long and short, based on a bottom-up fundamental valuation-orientated analysis.

INVESTMENT PARAMETERS

The Coronation Presidio Hedge Fund may invest in International Assets. In addition to investing in equities, the fund may hold cash and interest-bearing assets where appropriate and make use of derivative instruments for efficient portfolio management purposes. Exposure to underlying funds is permitted. Net exposure is capped at 100% and gross exposure is limited to 300%. Unlisted South African equities (up to 10% of portfolio value at cost / 15% of portfolio market value).

MONTHLY COMMENTARY

The Fund had a good month, returning -4.2%* for March, outperforming the JSE Capped All Share Index ('CAPI') that declined 10.6%. This performance was delivered with a net exposure that averaged 80.4% for the month. The main positive contributors (on a relative basis) on the long side were Exxaro Resources (+13.6%), Glencore PLC (+11.8%) and Shoprite Holdings (+5.5%). On the short side, positions in a cash-based, omni-channel retailer and a private hospital group contributed to relative outperformance. In terms of detractors, longs in Northam Platinum Holdings (-20.0%), Pepkor Holdings (-15.0%) and Compagnie Financiere Richemont (-9.2%) as well as short positions in a global chemical and energy company as well as a producer and exporter of thermal coal cost performance.

The annualised return of the Fund since inception is 13.6% versus 12.7% for the CAPI and cash of 6.5%. This has been achieved with an average net equity exposure of 64.8% and volatility of 9.7%. At the end of March, the net exposure of the fund was 80.4%, above the fund's long-term average. We remain of the view that the return from equities is more attractive than cash.

*The Fund return is net of expenses and gross of fees.

Coronation Management Company (RF) (Pty) Ltd is an approved manager of Collective Investments Schemes. Collective Investment Schemes are generally medium to long-term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future performance of the fund. Hedge Fund strategies can result in losses greater than the market value of the fund, however investor's losses are limited to capital invested or contractual commitments. Hedge Funds may invest into illiquid instruments which may result in longer periods for investors to redeem units in a portfolio. The ability of a portfolio to repurchase is dependent upon the liquidity of the portfolio and cash of the portfolio. All income, capital gains and other tax liabilities that may arise as a result of participating in this investment structure remain that of the investor. Coronation reserves the right to close the Fund to new investors in order to ensure the Fund is more efficiently managed in line with our clients' mandates. The investor acknowledges the inherent risk associated with an investment in the Fund and agrees that Coronation will not be liable for the consequences of the market influences and consequent changes in unit prices. Collective Investments are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from the Manager. The Manager provides no guarantee either in respect of capital preservation or investment return. The Fund's net asset value and price per participatory interest is available at any time on request as well as published monthly in the Fund Fact Sheet, available on www.coronation.com.
