

LONG TERM OBJECTIVE

The Coronation Houseview Equity Strategy represents our best investment view for an equity mandate. The portfolio is constructed on a clean-slate basis with no reference to a benchmark. It seeks to identify the best risk adjusted returns in the market and aims to outperform the equity market over meaningful periods (defined as at least 5 years).

INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house. Our aim is to identify mispriced assets trading at discounts to their long-term underlying value (fair value) through extensive proprietary research. In calculating fair values, through our fundamental research, we focus on through-the-cycle normalised earnings and/or free cash flows using a long-term time horizon. The Portfolio is constructed on a clean-slate basis based on the relative risk-adjusted upside to fair value of each underlying security. The Portfolio is constructed with no reference to a benchmark. We do not equate risk with tracking error, or divergence from a benchmark, but rather with the probability of a permanent loss of capital.
