

LONG TERM OBJECTIVE

The Coronation Global Houseview Strategy is a clean slate fully discretionary balanced portfolio, which represents our best investment view for a balanced portfolio in all major asset classes – equities, property, bonds, cash and international. The Strategy's objective is to outperform the median return of its peer group or composite benchmark over meaningful period (defined as at least 5 years). The Strategy is managed in accordance with the limits of Regulation 28 of the Pension Funds Act.

INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house. Our aim is to identify mispriced assets trading at discounts to their long-term underlying value (fair value) through extensive proprietary research. The Portfolio is constructed on a clean-slate basis based on the relative risk-adjusted upside to fair value of each underlying asset. The Portfolio is constructed with no reference to a benchmark. We do not equate risk with tracking error, or divergence from a benchmark, but rather with the probability of a permanent loss of capital.
