

LONG TERM OBJECTIVE

The Coronation Strategic Bond Strategy is an actively managed fixed interest solution that allocates across all the different fixed income instruments. The Strategy has a flexible mandate with no duration or term restrictions. The Strategy invests in the traditional fixed interest assets, but can also invest in listed property, preference shares and inflation-linked bonds, which are typically excluded in most specialist mandates. This flexibility allows the Strategy to maximise every opportunity in the domestic fixed interest space and produce superior returns for clients. The Strategy aims to consistently outperform the JSE ASSA All Bond Index over the medium to long term.

INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house. Our aim is to identify mispriced assets trading at discounts to their fair value through extensive proprietary research. The fixed income portfolios are positioned on a long term strategic market view, but this is balanced by taking advantage of shorter-term tactical opportunities when the market lags or runs ahead of that strategic view. As active managers, we consider investment decisions across the full spectrum of potential return enhancers. These include duration and yield curve positions, inflation-linked assets as well as yield enhancement through credit enhanced assets. We aim to maximise returns by actively combining both a top-down and a bottom-up approach to portfolio construction.
