SUSTAINABLE GLOBAL EMERGING MARKETS EQUITY STRATEGY

INSTITUTIONAL STRATEGY FACT SHEET AS AT 31 DECEMBER 2021

CORONATION TRUST IS EARNED™

LONG TERM OBJECTIVE

The Coronation Global Emerging Markets Equity Strategy provides access to the best investment opportunities in Global Emerging Markets. It aims to deliver long-term capital growth through a focused equity portfolio of companies based in emerging markets. The objective is to outperform the MSCI Emerging Markets Index over 5 years and longer periods. The Strategy aims to invest sustainably by excluding investment into companies that do not meet specific environmental, social, and governance criteria.

INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house, focused on bottom-up stock picking. Our aim is to identify mispriced assets trading at discounts to their long-term business value (fair value) through extensive proprietary research. In calculating fair values, through our fundamental research, we focus on through-the-cycle normalised earnings and/or free cash flows using a long-term time horizon. Environmental, Social and Governance factors are included in the assessment of a company's long-term fair value. The Portfolio is constructed on a clean slate basis based on the relative risk-adjusted upside to fair value of each underlying security and their expected Internal Rate of Return (IRR). The Portfolio may invest up to 15% in assets that are not part of the benchmark. The Portfolio does not invest in companies that are materially exposed to tobacco, controversial weapons, thermal coal, coal-based power and tar sands. Companies that are deemed to engage in practices that cause or could result in material environmental or social harm are also excluded from the portfolio.
