

## LONG TERM OBJECTIVE

The Coronation Managed Strategy is an aggressive, clean slate fully discretionary balanced portfolio. The Strategy's objective is to outperform its peer group or a composite benchmark over meaningful periods (defined as at least 5 years). The Strategy is managed in accordance with the limits of Regulation 28 of the Pension Funds Act.

## INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house. Our aim is to identify mispriced assets trading at discounts to their long-term business value (fair value) through extensive proprietary research. In calculating fair values, through our fundamental research, we focus on through-the-cycle normalised earnings and/or free cash flows using a long-term time horizon. The Portfolio is constructed on a cleanslate basis based on the relative risk-adjusted upside to fair value of each underlying security. The Portfolio is constructed with no reference to a benchmark. We do not equate risk with tracking error, or divergence from a benchmark, but rather with a permanent loss of capital.
