

## LONG TERM OBJECTIVE

The Coronation Global Equity Fund of Funds aims to deliver capital growth through a focused portfolio of the best equity managers globally. The Strategy invests in top-quality long-only equity funds (typically 10) and is broadly diversified across geographic regions including emerging markets. The underlying fund managers have well-established track records with a similar investment approach to ours, and have been thoroughly evaluated by Coronation's due diligence team. The objective is to outperform the MSCI All Country World Index over a 5-year period.

## INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house, focused on bottom-up stock picking. Our aim is to identify mispriced assets trading at discounts to their long-term business value (fair value) through extensive proprietary research. In calculating fair values, through our fundamental research, we focus on through-the-cycle normalised earnings and/or free cash flows using a long-term time horizon. We select managers who share a similar investment philosophy to ours. We do not equate risk with tracking error, or divergence from a benchmark, but rather with a permanent loss of capital.

## STRATEGY RETURNS GROSS OF FEES

Period	Strategy	Benchmark	Active Return

\* The Global Equity Fund of Funds was launched in January 2008 under the Coronation Universal Fund, a non-UCITS open-ended umbrella unit trust, at \$10 per unit. Performance figures prior to this date refer to the Global Equity Fund of Funds, a sub-fund of the Coronation Retail Fund 2, which has been liquidated. The majority of investors in the latter transferred their holdings into the new Coronation Universal Fund in January 2008. The funds have similar investment objectives and strategies but different fee structures.
