

## LONG TERM OBJECTIVE

The Coronation Domestic Houseview Strategy is a clean slate fully discretionary portfolio, which represents our best investment view for a domestic balanced portfolio in all major domestic asset classes – equities, property, bonds and cash. The Strategy's objective is to deliver the best risk-adjusted returns available across all the listed asset classes. In achieving this it aims to outperform the benchmark over meaningful periods (defined as at least 5 years).

## INVESTMENT APPROACH

Coronation is a long-term, valuation-driven investment house. Our aim is to identify mispriced assets trading at discounts to their long-term underlying value (fair value) through extensive proprietary research. The Portfolio is constructed on a clean-slate basis based on the relative risk-adjusted upside to fair value of each underlying asset. The Portfolio is constructed with no reference to a benchmark. We do not equate risk with tracking error, or divergence from a benchmark, but rather with the probability of a permanent loss of capital.
