CORONATION GLOBAL CAPITAL PLUS [ZAR] FEEDER FUND

Fund Information **as at 31 August 2018**

CORONATION
TRUST IS EARNED™

WHAT IS THE FUND'S OBJECTIVE?

Global Capital Plus is in the first instance managed to achieve reasonable investment growth over time. Our intent is that the fund should meaningfully outperform an investment in developed market cash over any five-year period. In addition, we aim to preserve capital over any 12-month period.

WHAT DOES THE FUND INVEST IN?

Global Capital Plus can invest in all listed asset classes including shares, listed property, bonds and cash. The fund will primarily have exposure to developed economies (including the US, Europe and Japan) but can also invest in emerging markets.

The fund is managed to suit the needs of more conservative investors who want to invest for longer than three years. Exposure to growth assets (shares and listed property), which pose more risk than income assets, will typically not exceed 50%.

The intent is to keep the fund fully invested in foreign assets at all times. It will have exposure to a variety of currencies, with a general bias towards developed markets, specifically to the US dollar and euro.

The fund is allowed to make use of exchange traded funds and financial instruments to implement its investment views.

This feeder fund aims to remain fully invested in units in the Global Capital Plus Fund, which is domiciled offshore. The only other assets that will be held at feeder fund level is local and foreign cash for liquidity purposes.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

Risk Profile

6/10
Moderate

Maximum growth/ minimum income exposures

- Growth Assets: 50%
- Income Assets: 50%

Global Capital Plus aims to protect capital over any 12-month period in all market conditions, while offering real investment growth over the long term. However, capital is not guaranteed.

The fund invests in a broad range of different assets and many countries. Global currency movements may intensify investment gains or declines.

A conservative multi-asset fund which aims to preserve capital, it is classified as having a conservative to moderate risk profile. However, the fund has significant foreign asset exposure and is therefore subject to currency volatility. For the rand investor the risk profile of the fund should be considered as moderate to high.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

An investment term of more than three years is recommended.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

Investors who are building wealth, and who

- seek a single international investment that will give them access to some of the best opportunities around the globe, while aiming to protect their capital;
- require conservative exposure to offshore markets;
- do not require an income from their investment.

WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of 1.25% is payable.

Of the annual fee 0.40% is collected at feeder fund level, while the balance of the fee is collected in the master fund.

If the fund performance over any 24-month period is negative in USD, the fee is reduced to 0.85%. The underperformance reduction will cease from 01 October 2018. All fees exclude VAT.

All fees exclude VAT. Fund expenses incurred in the fund include fees payable to unconnected international fund managers on a portion of assets situated offshore as well as trading, custody and audit charges. All performance information is disclosed after deducting all fees and other fund costs.

We do not charge fees to access or withdraw from the fund.

More detail is available on www.coronation.com.
