

WHAT IS THE FUND'S OBJECTIVE?

The Money Market Fund aims to outperform one to three year fixed deposit and call accounts over time, while taking the lowest level of capital risk consistent with this objective.

WHAT DOES THE FUND INVEST IN?

The fund will only invest in South African money market instruments with a maturity of less than a year. These include a wide range of instruments issued by banks and other institutions. The fund has a limit of 120 days on the average maturity of its investments. The fund is mandated to use derivative instruments for efficient portfolio management purposes.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

The fund is tactically managed to achieve the best possible return achievable from short maturity money market instruments, while aiming to protect capital at all times.

Our fixed income investment team researches the full spectrum of money market instruments to capture the best possible returns. The fund's investments are subjected to a strict risk management process.

While the low risk of losing money over all investment periods is reflected in the fund's constant daily price, an investment in the fund is not equivalent to a bank deposit account and losses are possible.

The return to the investor is made up of interest received plus or minus any gains or losses made on the underlying instruments held in the fund. In most cases, these gains or losses will merely increase or decrease the daily yield, but in the case of abnormal credit events impacting underlying holdings, the capital value of the portfolio may reduce.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The recommended investment term is one month and longer.

Given its lack of exposure to growth assets, the fund is not suited for lengthy investment terms.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

Investors who require:

- an alternative to bank deposits;
- a place to 'park' their savings for a short time;
- quick access to their money,
- a low-risk investment to diversify their portfolio;
- capital protection, but not capital growth.

WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of 0.25% (excl. VAT) is payable.

Fund expenses that are incurred in the fund include trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs.

We do not charge fees to access or withdraw from the fund.
