

CORONATION MARKET PLUS FUND

Fund Information as at 28 February 2018

WHAT IS THE FUND'S OBJECTIVE?

Market Plus aims to maximise long-term investment growth, at lower levels of risk than a fund that is only invested in shares.

WHAT DOES THE FUND INVEST IN?

Market Plus can invest in a wide range of assets such as shares, bonds, listed property and cash, both in South Africa and internationally.

It will typically have a strong bias towards shares, which offer the highest expected long-term returns. But unlike an equity fund, it does not have to remain fully invested in shares when we believe the stock market is too expensive.

Foreign investments (excluding Africa) may represent up to 40% of its assets. The fund is mandated to use derivative instruments for efficient portfolio management purposes.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

Risk Profile

Maximum growth/ minimum income exposures

Market Plus represents Coronation's view on the best combination of different assets that could maximise long-term returns at a reasonable level of risk.

The fund is primarily invested in shares, and will actively seek out only those investments we believe are attractively valued and may offer superior long-term growth.

Market Plus will typically have more exposure to shares than a traditional balanced fund. Shares can be volatile investments and there is a risk of capital loss, especially over the short term. However, the fund is managed with a strong emphasis on instrument valuation and it is therefore unlikely to lose money over the longer term. It may still produce negative returns in extreme years, but at a lower level than a pure equity fund.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The recommended investment term for this fund is five years and longer.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

Long-term investors who are building wealth and

- can stay invested for at least five years (preferably longer);
- seek to preserve the purchasing power of their savings over the long term by investing in a diversified portfolio;
- are not dependent on an income from their investment;
- who do not need to accept the investment constraints applicable to retirement savers.

WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of a minimum of 0.75% and a maximum of 2.40% is payable, depending on the fund's performance.

If the fund's return (after fees and costs) is equal to that of its benchmark plus 2%, an annual fee of 1.25% will be charged. We share in 20% of performance above the benchmark plus 2%, up to a maximum annual total fee of 2.40%. Performance is measured over a rolling 24-month period.

When the fund underperforms the benchmark over any 60-month period, the fee is reduced by 0.50%.

TFI Class A - An annual fee of 1.60% is payable. This class is only available for Tax Free Investments.

All fees exclude VAT. Fund expenses that are incurred in the fund include fees payable to unconnected international fund managers on a portion of assets situated offshore as well as trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs.
