

WHAT IS THE FUND'S OBJECTIVE?

The Property Equity Fund seeks to maximise long-term growth from investing in South African listed property companies. The fund aims to outperform the JSE All Property Index.

WHAT DOES THE FUND INVEST IN?

The fund primarily invests in companies that earn the main part of their revenue from owning, managing or developing properties.

It only invests in companies listed on the Johannesburg Stock Exchange, which may include foreign property companies that are listed locally. The fund is mandated to use derivative instruments for efficient portfolio management purposes.

Benchmark change – The fund benchmark has changed to FTSE/JSE All Property Index effective 01 August 2018.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

The fund's investment returns come from both growth in the share prices of property companies, and income (primarily earned from rentals) paid out by these companies.

Property shares are carefully selected to offer sustainable income and superior capital growth over the long term.

Shares can be volatile investments and there is a risk of capital loss over the short term. The fund's income distributions may also fluctuate due to a number of factors, including changes in the property market and interest rates.

It should typically be viewed as a component of an overall investment portfolio, and not as an investor's only investment.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The recommended investment term is three years and longer.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

Investors who are building wealth, and who

- require exposure to property as part of a diversified investment portfolio;
- are comfortable with being fully invested in property companies listed in SA;
- accept the volatility and possible short-term losses associated with an investment in shares;
- seek a regular income.
