

CORONATION BALANCED DEFENSIVE FUND

Fund Information as at 30 April 2019

WHAT IS THE FUND'S OBJECTIVE?

Balanced Defensive is in the first instance managed to protect capital over any 12-month period. In addition, we aim to achieve reasonable investment growth over the long run.

It is specifically managed to suit very cautious investors who want to draw an income over an extended period of time.

WHAT DOES THE FUND INVEST IN?

Balanced Defensive can invest in a wide range of assets, such as shares, bonds, listed property and cash, both in South Africa and internationally.

The fund will typically hold a maximum of 50% of its investments in growth assets (shares and property). Shares usually offer the best growth, but this comes with the greatest risk of short-term losses. The fund's exposure to shares is therefore carefully balanced with more stable investments like bonds.

Exposure to foreign assets (excluding Africa) is limited to 30%. The fund is mandated to use derivative instruments for efficient portfolio management purposes.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

The fund is tactically managed to protect and grow capital, as well as secure an attractive income.

A large and experienced investment team actively seeks out the best potential opportunities for income and growth, while taking great care to consider the different risks within the fund.

Balanced Defensive is specifically managed to not lose money over any 12-month period, although it cannot guarantee protection against losses.

Our intent is that the fund should produce a return of at least CPI + 3% p.a. over the medium term.

The fund is diversified across a range of assets reflecting its cautious risk budget. This includes a selection of shares that we believe are attractively valued, as well as quality income assets.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The recommended investment term is three years and longer.

The fund's exposure to shares may result in short-term price fluctuations that make it unsuitable for investors who can only invest for short periods.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

- Pensioners and other investors requiring an income, especially those in the second half of retirement.
- Living annuity investors seeking a fund that aims to achieve both income and capital growth.
- Cautious pre-retirement investors seeking a low-risk fund for their retirement annuity, provident fund, preservation fund or pension fund.
- Trusts, endowments, foundations and charities who require long-term funding of a moderate spending rule.
- The fund is not appropriate for investors who want to build wealth over more than five years.

WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of 1.25%(excl VAT) is payable.

The annual management fee is accrued daily and paid monthly. Fund expenses incurred in the fund include fees payable to unconnected international fund managers on a portion of assets situated offshore as well as trading, custody and audit charges. All performance information is disclosed after deducting all fees and other fund costs.

We do not charge fees to access or withdraw from the fund.
