

# CORONATION BALANCED PLUS FUND

Fund Information as at 31 May 2019

## WHAT IS THE FUND'S OBJECTIVE?

Balanced Plus aims to achieve the best possible investment growth for retirement savers (within the constraints of Regulation 28 of the Pension Funds Act) over the long term.

## WHAT DOES THE FUND INVEST IN?

Balanced Plus can invest in a wide variety of assets, such as shares, bonds, listed property and cash, both in South Africa and internationally.

The fund complies with Regulation 28, which limits the exposure of retirement investors to certain asset classes. For example, shares may never comprise more than 75% of the fund's portfolio, while exposure to property is limited to 25% and foreign assets (excluding Africa) is limited to 30% each.

The fund is mandated to use derivative instruments for efficient portfolio management purposes.

## IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

As Balanced Plus aims to maximise long-term returns, it will typically have a strong bias towards shares, which offer the highest expected growth over the long run. The fund's managers actively seek out attractively valued shares that may achieve strong returns over periods of five years and longer.

While shares usually offer the best investment return, this comes with the greatest risk of short-term losses. The fund's investment in shares is therefore carefully balanced with other assets (including cash, bonds and property) to ensure that risk is moderated. Returns from these assets are not as volatile as shares, and will not always move in the same direction (up or down) at the same time, making the fund less risky than a pure equity fund.

Given the care taken to manage risk and to ensure that the best possible returns can be achieved from a range of diverse investments, it is unlikely that the Balanced Plus fund will lose money over the longer term. However, the fund may produce negative returns in extreme years, albeit at a lower level than a fund that is only invested in shares.

## HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The recommended investment term is five years and longer.

## WHO SHOULD CONSIDER INVESTING IN THE FUND?

Investors who are saving for retirement, and:

- can stay invested for at least five years (preferably longer);
- have to choose a fund for their retirement annuity, provident fund, preservation fund or pension fund, and are looking for an investment that balances long-term growth with moderate levels of risk.

## WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of 1.25% (excl. VAT) is payable.

Fund expenses that are incurred in the fund include fees payable to unconnected international fund managers on a portion of assets situated offshore as well as trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs. We do not charge fees to access or withdraw from the fund.
