

CORONATION GLOBAL EMERGING MARKETS FLEXIBLE [ZAR] FUND

Fund Information as at 31 December 2022

WHAT IS THE FUND'S OBJECTIVE?

The Global Emerging Markets Flexible [ZAR] Fund aims to give investors access to the best opportunities in emerging equity markets. The fund actively seeks out attractively valued shares to maximise long-term growth. Our intent is to outperform the emerging equity benchmark over all periods of five years and longer.

WHAT DOES THE FUND INVEST IN?

The fund invests in the shares of companies which are either based in emerging countries, or earn a significant part of their revenue from emerging economies. It can also invest in cash and bonds, but will remain biased towards shares at all times. The fund is mandated to use derivative instruments for efficient portfolio management purposes.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

The fund will only invest in shares we view as being attractively valued and which may offer superior long-term investment growth.

The fund's share selection is the result of rigorous international research conducted by Coronation's investment team.

While we have a disciplined approach to reducing risk, shares can be volatile investments and there is a meaningful risk of capital loss over the short term. Emerging markets are generally viewed as more risky than developed markets. Global currency movements may intensify investment gains or declines.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The fund is managed to deliver the best possible returns over the long term; an investment horizon of 10 years or more is therefore ideal. It is not suitable as a single investment for investors who need to preserve their capital over five years or less.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

- Investors who are building wealth, and who
- ▶ are comfortable with full exposure to shares in emerging markets;
 - ▶ accept that the fund may underperform the market significantly in the short term in pursuit of superior long-term gains;
 - ▶ hold other investments and are looking for exposure to emerging markets;
 - ▶ do not require an income from their investment.

WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of a minimum of 1.00% and a maximum of 2.40%, depending on the fund's performance, is payable.

If fund performance equals that of the benchmark (after fees and costs), a fee of 1.15% will be charged. We share in 20% of performance above the benchmark, up to a total annual fee of 2.40%. Performance is measured over a rolling 24-month period.

If the fund underperforms the benchmark over any 60-month period, the fee is reduced by 0.15%.

All fees exclude VAT. Fund expenses that are incurred in the fund include administrative, trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs.

We do not charge any fees to access or withdraw from the fund.
