

## WHAT IS THE FUND'S OBJECTIVE?

The fund aims to maximise long-term investment growth from investing in a select group of South African listed industrial and consumer companies.

It seeks to outperform an index of industrial companies listed on the Johannesburg Stock Exchange (the JSE Industrial Index) over the longer term.

## WHAT DOES THE FUND INVEST IN?

The fund will remain fully invested in companies listed on the JSE, most excluding those involved in mining and financial services. It can invest in a wide range of industries, including technology, telecommunication, healthcare and consumer goods.

While the fund may not invest in foreign markets, it can have exposure to international companies that are listed in South Africa. The fund is mandated to use derivative instruments for efficient portfolio management purposes.

## IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

## Risk Profile

Maximum growth/  
minimum income exposures

The fund's managers actively seek out attractively valued companies that could offer strong long-term growth.

Shares are selected following rigorous and independent research into the long-term potential of a company, and whether it is currently attractively valued relative to its sector.

Shares can be volatile investments and there is a meaningful risk of capital loss over the short term. However, given its focus on investing only in attractively valued shares that could offer long-term growth, the fund may preserve capital better than its benchmark over the long run.

The fund is concentrated and only invests in one sector of the market, making it riskier than a general equity fund.

## HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The fund is managed to deliver the best possible returns over the long term; an investment horizon of five years or more is therefore ideal.

## WHO SHOULD CONSIDER INVESTING IN THE FUND?

Investors who are building wealth, and

- ▶ want to diversify their investments to include exposure to a wide range of industrial companies;
- ▶ accept that the fund may underperform the market significantly in the short term in pursuit of superior long-term gains;
- ▶ want to hold the Industrial Fund as one of multiple funds in their investment portfolio.

## WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of 1.00% (excl. VAT) is payable.

Fund expenses that are incurred in the fund include trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs.

We do not charge fees to access or withdraw from the fund.
