

WHAT IS THE FUND'S OBJECTIVE?

SA Income Fund aims to achieve a higher return than a traditional money market or ultra-short duration income fund.

WHAT DOES THE FUND INVEST IN?

SA Income can invest in South African bonds, fixed deposits, and other interest-bearing securities which have a fixed maturity date and either have a predetermined cash flow profile or are linked to benchmark yields.

The fund does not invest in any equity securities, real estate securities or cumulative preference shares. The fund will not invest in any assets deemed offshore for SARB reporting purposes.

The fund is mandated to use derivative instruments for efficient portfolio management purposes.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

Risk Profile

Maximum growth/
minimum income exposures

SA Income is tactically managed to secure an attractive return, while protecting capital. The fund's weighted average modified duration is limited to a maximum of two.

Its investments are carefully researched by a large and experienced investment team and subjected to a strict risk management process. The fund is actively positioned to balance long-term strategic positions with shorter-term tactical opportunities to achieve the best possible income.

While the fund is managed in a conservative and defensive manner, there are no guarantees it will always outperform cash over short periods of time. Capital losses are possible, especially in the case of negative credit events affecting underlying holdings.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The recommended investment term is six months and longer. Given its lack of exposure to growth assets, the fund is not suited for investment terms of longer than five years.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

Investors who

- ▶ are looking for an intelligent alternative to cash or bank deposits over periods from 6 to 36 months;
- ▶ seek managed exposure to South African income generating investments;
- ▶ believe in the benefits of active management within the fixed interest universe;
- ▶ do not have appetite for exposure to offshore assets;
- ▶ the fund is particularly suited to those who require exposure to South African interest bearing securities as part of a diversified portfolio.

WHAT COSTS CAN I EXPECT TO PAY?

The annual management fee is 0.65%.

Fund expenses that are incurred in the fund include trading, custody and audit charges. All performance information is disclosed after deducting all fees and other fund costs.

We do not charge fees to access or withdraw from the fund.
