

## WHAT IS THE FUND'S OBJECTIVE?

Market Plus aims to maximise long-term investment growth, at lower levels of risk than a fund that is only invested in shares.

## WHAT DOES THE FUND INVEST IN?

Market Plus can invest in a wide range of assets such as shares, bonds, listed property and cash, both in South Africa and internationally.

It will typically have a bias towards shares, which offer the highest expected long-term returns. But unlike an equity fund, it is a multi-asset fund and therefore more broadly diversified.

Foreign investments may represent up to 45% of its assets. The fund is mandated to use derivative instruments for efficient portfolio management purposes.

## IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

### Risk Profile

### Maximum growth/ minimum income exposures

Market Plus represents Coronation's view on the best combination of different assets that could maximise long-term returns at a reasonable level of risk.

The fund is primarily invested in shares, and will actively seek out only those investments we believe are attractively valued and may offer superior long-term growth.

Market Plus will typically have more exposure to shares than a traditional balanced fund. Shares can be volatile investments and there is a risk of capital loss, especially over the short term. However, the fund is managed with a strong emphasis on instrument valuation and it is therefore unlikely to lose money over the longer term. It may still produce negative returns in extreme years, but at a lower level than a pure equity fund.

## HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The recommended investment term for this fund is five years and longer.

## WHO SHOULD CONSIDER INVESTING IN THE FUND?

Long-term investors who are building wealth and

- can stay invested for at least five years (preferably longer);
- seek to preserve the purchasing power of their savings over the long term by investing in a diversified portfolio;
- are not dependent on an income from their investment;
- who do not need to accept the investment constraints applicable to retirement savers.

## WHAT COSTS CAN I EXPECT TO PAY?

The annual management fee is 1.25%.

All fees exclude VAT. Fund expenses that are incurred in the fund include fees payable to unconnected international fund managers on a portion of assets situated offshore as well as trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs.
