

WHAT IS THE FUND'S OBJECTIVE?

The fund is in the first instance managed to achieve reasonable investment growth over the medium to long term. Our intent is that the fund should produce an annualised return of at least inflation plus 4% over time. In addition, we aim to achieve less volatility than the average balanced fund. It is specifically managed to suit investors who want to draw an income over an extended period of time.

WHAT DOES THE FUND INVEST IN?

Capital Plus can invest in a wide range of assets, such as shares, bonds, listed property and cash, both in South Africa and internationally, in a manner similar to that usually employed by retirement funds. As the fund actively seeks to curb risk and volatility, investments held in growth assets like shares and listed property would typically not exceed 75%. Shares usually offer the best growth, but this comes with the greatest risk of short-term losses. The fund's exposure to shares is therefore carefully balanced with more stable investments like bonds. Maximum exposure to foreign assets is 45%. The fund is mandated to use derivative instruments for efficient portfolio management purposes.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

Risk Profile

Maximum growth/
minimum income exposures

The fund is tactically managed to protect and grow capital, as well as secure an attractive income. A large and experienced investment team actively seeks out the best potential opportunities for income and growth, while carefully considering the different risks within the fund.

The fund is diversified across a range of assets reflecting its dual objectives of reasonable growth and capital stability. This includes a selection of shares we believe are attractively valued and may offer strong long-term returns, as well as strategic positions in quality income assets.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The recommended investment term is three years and longer. The fund's exposure to shares may result in short-term price fluctuations, making it unsuitable to investors who can only invest for short periods.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

- Pensioners and other investors requiring an income, especially those in the first half of retirement.
- Living annuity investors seeking a fund that aims to achieve both income and capital growth.
- Investors requiring a low-risk fund, which offers a reasonable rate of return, for their retirement annuity, provident fund, preservation fund or pension fund.
- Conservative investors who want to protect their savings.
- Trusts, endowments, foundations and charities who require long-term funding of a moderate spending rule.

WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of 1.15% (excl. VAT) is payable.

The annual management fee is accrued daily and paid monthly. Fund expenses incurred in the fund include fees payable to unconnected international fund managers on a portion of assets situated offshore as well as trading, custody and audit charges. All performance information is disclosed after deducting all fees and other fund costs.

We do not charge fees to access or withdraw from the fund.
