

WHAT IS THE FUND'S OBJECTIVE?

The fund aims to maximise long-term growth from investing in the financial services industry. It seeks to outperform an index of financial companies listed on the Johannesburg Stock Exchange (the JSE Financial Index) over the longer term.

WHAT DOES THE FUND INVEST IN?

The Financial Fund primarily invests in the shares of companies listed on the Johannesburg Stock Exchange but can also invest in international equities.

The fund will remain fully invested in listed companies that earn a significant portion of their earnings from financial services. These include banks, insurance companies and related businesses.

The fund is mandated to use derivative instruments for efficient portfolio management purposes.

IMPORTANT PORTFOLIO CHARACTERISTICS AND RISKS

Risk Profile

Maximum growth/ minimum income exposures

The fund's managers actively seek out attractively valued financial companies that could offer strong long-term investment growth.

Shares are selected following rigorous research into the long-term potential of a company, and whether it is currently attractively valued relative to its sector.

Shares can be volatile investments and there is a meaningful risk of capital loss over the short term. However, given its focus on investing only in attractively valued shares that could offer long-term growth, the fund may preserve capital better than its benchmark over the long run.

The fund is concentrated and only invests in one sector of the market, making it riskier than a general equity fund.

HOW LONG SHOULD INVESTORS REMAIN INVESTED?

The fund is managed to deliver the best possible returns over the long term; an investment horizon of five years or more is therefore ideal.

WHO SHOULD CONSIDER INVESTING IN THE FUND?

Investors who are building wealth, and who

- want to diversify their investments to include specific exposure to banks, insurers and related businesses;
- believe that the financial sector offers compelling value;
- accept that the fund may underperform the broader market significantly in the short term as a result of its sector focus;
- seek to hold the Financial Fund as one of multiple funds in their investment portfolio.

WHAT COSTS CAN I EXPECT TO PAY?

An annual fee of 1.25% (excl. VAT) is payable.

Fund expenses that are incurred in the fund include trading, custody and audit charges. All performance information is disclosed after deducting all fees and other portfolio costs.

We do not charge fees to access or withdraw from the fund.
