

CORONATION GLOBAL EQUITY SELECT FUND

SUPPLEMENT 9

DATED 1 OCTOBER, 2024 TO THE PROSPECTUS DATED 1 OCTOBER, 2024 OF CORONATION GLOBAL OPPORTUNITIES FUND

This Supplement forms part of and should be read in conjunction with the Prospectus dated 1 October, 2024 (the "**Prospectus**"). Capitalised terms used but not defined in this Supplement shall bear the meanings attributable to them in the Prospectus. To the extent there is any inconsistency between the Prospectus and this Supplement with respect to the Coronation Global Equity Select Fund (the "**Fund**"), this Supplement shall prevail. The Fund Annex (being the annex hereof) sets out the pre-contractual disclosure template with respect to the Fund and has been prepared in accordance with the requirements of SFDR and contains additional information pertaining to the Fund in accordance with SFDR. The Fund Annex forms part of and should be read in conjunction with the Supplement. In the event of any inconsistency between the terms of the Fund Annex and the terms of the Supplement with regard to disclosure pertaining to SFDR, the Fund Annex shall prevail.

1. **Structure**

The Fund is a sub-fund of Coronation Global Opportunities Fund, an open-ended umbrella unit trust authorised by the Central Bank as a UCITS pursuant to the UCITS Regulations (the "**Coronation Global Opportunities Fund**"). At the date of this Supplement, the Coronation Global Opportunities Fund has twelve sub-funds, the Coronation Global Opportunities Equity Fund, the Coronation Global Cash Fund, the Coronation Global Emerging Markets Fund, the Coronation All Africa Fund, the Coronation Global Capital Plus Fund, Coronation Global Managed Fund, the Coronation Global Strategic USD Income Fund, the Coronation Global Strategic GBP Income Fund, the Coronation Global Equity Select Fund, the Coronation Global Optimum Growth Fund, the Coronation Global Short Duration Fund and the Coronation Multi-Manager Global Equity Fund.

A description of Coronation Global Opportunities Fund and its management and administration, general management and fund charges, taxation of the Fund and its Unitholders and risk factors is contained in the Prospectus.

The Prospectus is available from:

- the Administrator at 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin D02 RK57, Ireland; or

- the Manager at Suite 1, 2 Grand Canal Square, Macken Street, Dublin D02 A342, Ireland;
- the Investment Manager, being Coronation Investment Management International Proprietary Limited at 7th Floor, Montclare Place, Cnr Campground and Main Road, Claremont, 7708, Cape Town, South Africa; or
- www.coronation.com for download free of charge.

The Fund is suitable for high net worth individuals, institutional and retail investors seeking long term growth and who are willing to accept a high level of volatility.

The directors of the Manager of the Trust, whose names appear under the heading, “Management and Administration” in the Prospectus accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the directors (who have taken all reasonable care to ensure that such is the case) such information is in accordance with the facts and does not omit anything likely to affect the import of such information. The directors accept responsibility accordingly.

2. Classes of Units

Class A Units and Class Z Units (designated in US Dollars) were issued on 30 January, 2015 at an initial offering price of USD10 per Unit and are currently issued at the Net Asset Value per Unit of the relevant Class plus the applicable sales commission (if any).

Class P Units (designated in US Dollars) were issued on 10 March, 2015 at an initial offering price of USD 10 per Unit and are currently issued at the Net Asset Value per Unit of the Class P plus the applicable sales commission (if any).

Class S Units (designated in US Dollars) were issued on 21 November, 2022 at an initial offering price equivalent to the Net Asset Value per Unit of the Class P Units and are currently issued at the Net Asset Value per Unit of Class S plus the sales commission (if any).

Application for an initial subscription of Class A Units must be for an amount of not less than USD 15,000. Application for an initial subscription of Class P Units, Class S Units and Class Z Units must be for an amount of not less than USD 100,000 (the “**Minimum Initial Subscription**”).

Further applications by existing Unitholders in respect of Class A, Class P, Class S and Class Z or requests for redemption in respect of Class A, Class P and Class S must be for an amount of not less than USD 5,000 however, there is no minimum size for requests for redemption in respect of Class Z Units (the “**Minimum Transaction Size**”).

In addition, each Unitholder must retain Units having a Net Asset Value of not less than USD 2,500 in respect of Class A and Class Z Units and a Net Asset Value of not less than USD 10,000 in respect of Class P Units and Class S Units (the “**Minimum Holding**”).

The Manager reserves the right to differentiate between Unitholders as to waive or reduce the Minimum Initial Subscription, Minimum Holding and Minimum Transaction Size for certain investors, where in the best interests of the Fund to do so.

The Units in each Class rank pari passu with each other except (i) the different Minimum Initial Subscription and Minimum Holding in respect of each Class (ii) the Class Z Units will not be subject to an annual management fee; (iii) the Class S Units and Class Z Units will only be available to managed accounts and collective investment schemes managed on a discretionary or non-discretionary basis by companies within the Coronation group and selected other investors with the prior consent of the Manager; (iv) there is no minimum redemption size in respect of the Class Z Units; (v) subscription and redemption requests for Class S Units must be received prior to 5.00 p.m. (Irish time) on the relevant Dealing Day; and (vi) the Class P Units will only be available to accounts managed by fund supermarkets, platforms, or other bulk account investors and selected other investors with the prior consent of the Manager.

Following the launch of Units in a Class at the Initial Offer Price, all applications for Units in that Class must be received by the Administrator prior to 12.00 noon (Irish time) on the relevant Dealing Day, except in the case of the Class S Units for which applications must be received by the Administrator prior to 5.00 p.m. (Irish time) on the relevant Dealing Day.

Subscription monies must be received by the Administrator prior to 5.00 p.m. (Irish time) on the relevant Dealing Day. The Manager (subject to prior agreement) may extend the settlement period up to 2 Business Days to facilitate payment or settlement methods. The Manager reserves the right to defer the issue of Units until receipt of cleared subscription monies by the Fund.

If payment in cleared funds in respect of a subscription has not been received by the relevant time, the Manager or its delegate may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the investor interest at the Secured Overnight Financing Rate (SOFRINDEX as quoted by Bloomberg) + 1%, which will be paid into the Fund together with an administration fee of USD 100, which is payable to the Manager. The Manager may waive either of such charges in whole or in part. In addition, the Manager has the right to sell all or part of the investor's holding of Units in the Fund into which he is subscribing or any other Fund of the Trust in order to meet such charges.

The creation of additional Classes will be notified in advance to the Central Bank.

Should such additional Classes be created, the Manager reserves the right to differentiate between Unitholders as to waive any minimum initial subscription, minimum holding and minimum transaction size for certain investors, where in the best interests of the Fund to do so.

A separate portfolio of assets is not maintained for each Class.

3. Base Currency

US Dollars (USD).

4. Business Day

Any week day (Monday to Friday) on which banks are generally open for ordinary business in Ireland or such other day or days as may be determined by the Manager and notified to Unitholders.

5. Dealing Day

Each Business Day shall constitute a Dealing Day. Additional Dealing Days may be determined at the discretion of the Manager and notified to Unitholders in advance.

6. Valuation Day/Valuation Point

Valuation Day means each Dealing Day or such other day as the Manager may determine and notify to the Unitholders in advance. Valuation Point means close of business in the relevant market on each Valuation Day or such other time as the Manager may determine and notify to Unitholders in advance.

7. Investment Manager

Pursuant to an investment management agreement dated 15 September, 2015 with effect from 1 October, 2015 between the Manager and Coronation Investment Management International Proprietary Limited (the “**Investment Manager**”) as may be amended from time to time (the “**Investment Management Agreement**”) was appointed as investment manager responsible for managing the investment and re-investment of the assets of the Fund and the assets of any additional sub-funds of the Trust which it may agree in writing to act as investment manager.

The Investment Management Agreement is for an indefinite period and may be

terminated by the Manager or the Investment Manager on not less than ninety days' notice in writing (or such shorter notice as may be agreed by the parties). The Investment Management Agreement provides that the Manager shall hold harmless and indemnify the Investment Manager out of the assets of the relevant Fund from and against all actions, proceedings, claims, damages, costs, demands and expenses including, without limitation, legal and professional expenses on a full indemnity basis ("**Loss**") which may be brought against, suffered or incurred by the Investment Manager in the performance of its duties under the Investment Management Agreement other than due to the negligence, fraud, bad faith or wilful default of the Investment Manager in the performance of its obligations hereunder and in particular (but without limitation) this indemnity shall extend to any Loss arising as a result of any error of judgement, third party default or any loss, delay, misdelivery or error in transmission of any communication to the Investment Manager or as a result of acting in good faith upon any forged document or signature and the Manager acknowledges that in discharging its obligations under the Investment Management Agreement the Investment Manager may, in the absence of manifest error, rely without enquiry upon all information supplied to it by the Manager or any persons appointed by the Manager.

The major activity of the Investment Manager is asset management. The Investment Manager having its principal office at 7th Floor, Montclare Place, Cnr Campground and Main Road, Claremont, 7708, Cape Town, South Africa is an FSCA regulated company incorporated and registered in South Africa to act as investment manager/ investment adviser to a variety of funds. The Investment Manager is a wholly owned subsidiary of Coronation Fund Managers Limited.

The Investment Manager may with the prior approval of the Manager and in accordance with the requirements of the Central Bank, appoint one or more sub-investment managers or advisers if deemed necessary.

8. Investment Objectives

The investment objective of the Fund is to produce long term out-performance of the MSCI Daily Total Return ACWI (dividends reinvested net of withholding taxes) USD Index (NDUEACWF as quoted by Bloomberg) (the "Index") primarily through investment in equities and equity related securities in global markets and collective investment schemes ("**CIS**") which gain exposure to equities and equity related securities in global markets.

Although the investment objective of the Fund is to out-perform the Index and the Fund's return will be measured against that of the Index, the Fund will be actively managed in that there is no intention to track the Index or to use the Index to construct the portfolio composition of the Fund and consequently the Fund may be wholly invested in securities which are not constituents of the Index. While certain of the

Fund's securities may be components of and may have similar weightings to the Index, the Investment Manager will use its discretion to invest in securities not included in the Index in order to take advantage of investment opportunities. There are no risk limits applicable to the Fund defined by reference to the Index and the investment strategy of the Fund does not restrict the extent to which the Fund's holdings may deviate from the Index. Consequently deviations may be significant. The Index will accordingly simply be used as a measurement tool for measuring returns. The Index is a widely used measure of the performance of equities listed or traded on Recognised Exchanges in global markets.

9. Investment Policies

The investment objective will be achieved by investing, either directly or indirectly, at least 80% of the Fund's assets in equities, equity-related securities and CIS as further described below.

Although it will be normal policy of the Fund to deploy its assets as detailed above, where, in the opinion of the Investment Manager, appropriately valued equities, equity-related securities and CIS are not available, the Fund may also invest up to 20% of its Net Asset Value in fixed income securities, debt securities, property, commodities (such as oil, gold and iron), cash and cash equivalents.

Fixed income securities, debt securities, property, commodities, cash and cash equivalents, CIS and equities and equity related securities are collectively referred to herein as the "**Asset Classes**".

Equities and Equity Related Securities

The Fund may invest in equities and equity-related securities (namely listed warrants and convertible preference shares) of companies listed or traded on a Recognised Exchange through the application of the Investment Process (as further detailed below). There is no particular industry or sector focus to the investment in equities and equity related securities.

Fixed Income Securities

The Fund may invest in fixed income securities, such as international sovereign, government, supranational agency, corporate and other bonds (including mortgage and corporate bonds), asset and mortgage backed securities, certificates of deposit, commercial paper listed or traded on Recognised Exchanges located worldwide. Investment in such fixed income securities will be limited to 20% of the Net Asset Value of the Fund.

Debt and Debt-Related Instruments

The Fund may invest in debt and debt related instruments including debentures and notes (including promissory notes and participation notes). Such debt and debt-related instruments may be fixed or floating rate, where appropriate, and may be unrated or, if rated, shall not be subject to any minimum rating other than as may be determined by the Investment Manager's credit committee.

The Fund shall invest in debt and debt-related instruments that are unrated only following the completion of a due diligence on the issuer of such instruments (as further described below), and the issuer will in most instances be a listed entity.

Where the Fund invests in such debt and debt-related instruments with credit institutions or in Money Market Instruments (which include but are not limited to, short term commercial paper, floating rate notes, medium term notes, securities issued or guaranteed by any OECD government, its agencies or instrumentalities or by any supra-national entity with a minimum credit rating of "BB" as rated by Standard & Poor's rating agency or an equivalent rating) listed or traded on a Recognised Exchange, investors are reminded that Units of the Fund are not deposits or obligations of, or guaranteed or endorsed by, any bank and the amount invested in Units may fluctuate up and/or down.

Property and Commodities

The Fund may gain indirect exposure to property and commodity markets through the utilisation of exchange-traded certificates ("**ETCs**"), exchange traded notes ("**ETNs**") (such ETCs and ETNs will not embed leverage) (i.e. debt notes issued by financial institutions) and through investment in exchange-traded funds ("**ETFs**") (as further described under Collective Investment Schemes below).

ETCs and ETNs will be listed and/or traded on Recognised Exchanges. Where exposure is gained to commodities through exposure to ETFs that track the performance of a property or a commodity index, such property or commodity indices will be sufficiently diversified by being made up of exposure to different property or commodities (e.g. oil, gold and iron).

Closed-ended AIF ETFs shall be deemed to constitute eligible transferable securities for UCITS investment purposes. Open-ended AIF ETFs shall be deemed to constitute CIS for UCITS investment purposes in accordance with the requirements of the Central Bank.

Collective Investment Schemes

As set out in paragraph 10 (i) below, the Fund may not invest more than 80% of its Net Asset Value in total in open-ended CIS. The Fund may also invest in securities through quoted investment vehicles, including ETFs, and holdings in UCITS funds domiciled in a Member State and other open-ended CIS that satisfy the requirements of the Central Bank, such as CIS authorized in Luxembourg, Ireland and Isle of Man, including other CIS managed by the Manager or its affiliates. Investment in units of UCITS or AIF will be limited to CIS which adhere to similar investment policies and investment restrictions as those applying to the Fund. Any such CIS shall at all times meet the requirements of the Central Bank. The maximum level of management fees that may be charged by the CIS in which the Fund invests is 3%.

The Fund may also invest in the units of closed-ended CIS to gain exposure to investments consistent with the investment policies of the Fund. Such CIS will be treated as transferable securities. The Fund may invest in such funds to the extent that it determines that such investment will not affect the Fund's ability to provide the liquidity described under "Redemption of Units" in the Prospectus. Cash and Cash Equivalents.

In the appropriate circumstances, the Fund may retain cash and cash equivalents such as certificates of deposit, treasury bills and notes. Such circumstances may include but are not limited to the holding of cash and/or cash equivalents pending reinvestment in accordance with the investment objective and policies of the Fund, in order to meet redemptions and/or payment of expenses and/or cover for FDI entered into on behalf of the Fund.

SFDR

The Fund meets the classification of an Article 8 fund, within the meaning of SFDR as it promotes environmental and social characteristics, by applying the Manager's Exclusion Policy, as more fully set out in the Fund Annex appended hereto.

Furthermore, the Investment Manager considers the ESG Policy when determining the investments to make for the Fund and in doing so, the Investment Manager integrates ESG factors into the investment decision-making process.

As set-out in further detail in the Prospectus, the Exclusion Policy and the ESG Policy is available on Coronation's website, at www.coronation.com.

Further information about the environmental and social characteristics promoted by the Fund is available in the Fund Annex appended hereto.

In addition to the Fund Annex, please also refer to Appendix VI of the Prospectus which contains disclosures required under SFDR and certain additional information relevant to the Fund.

Investment Process

The Fund shall invest in the Asset Classes upon the completion of a due diligence process of a particular investment. The investment process will include both qualitative and quantitative analyses, including an assessment of the fair value of an instrument and its inherent risk. The pricing of the instrument will be determined using the Investment Manager's proprietary pricing model which determines an appropriate credit spread for the instrument. The proprietary pricing model will make reference to all the available company specific information as well as the expected liquidity of the instrument.

In particular, equity investment selection will be driven by the relative attractiveness of equity securities across the investable universe. The key factors in determining attractiveness will be valuation and liquidity. The Investment Manager will buy equities that the Investment Manager deems to be undervalued, but only if the Investment Manager is satisfied that those equities are sufficiently liquid that they can be sold in a relatively short period. In determining an appropriate valuation for a security, account will be taken of the various risks inherent within the business including the political stability of the country in which the issuer is domiciled or from which it derives a significant proportion of its earnings.

Investment by the Fund in CIS will be subject to an appropriate due diligence investigation conducted by the Investment Manager together with an annual review of such investments.

In managing the Fund, the Investment Manager endeavours to achieve the target performance through a concentrated equity investment selection process. The Investment Manager will actively manage the Fund and hence vary the allocation to country, sector and different securities over time. This is not a buy and hold portfolio.

Assessment of the Impact of Sustainability Risk on Likely Returns

An assessment is undertaken of the likely impacts of Sustainability Risks on the Fund's returns. In considering Sustainability Risks in investment decisions, the Investment Manager may forgo opportunities for the Fund to gain exposure to certain issuers and may choose to sell an investment when it might otherwise be disadvantageous to do so. Where a Sustainability Risk occurs in respect of an asset, there could be a negative impact on, or loss of its value. The Investment Manager has determined that the Sustainability Risk faced by the Fund is low. However, investors are cautioned that

even where Sustainability Risks are identified, there can be no guarantee that the Investment Manager will or has correctly assessed the impact of Sustainability Risks on the Fund's investments or proposed investments.

The contents of Appendix VI set out in more detail the manner in which the Investment Manager integrates Sustainability Risk into its investment decision-making.

10. Investment Restrictions

The Fund is subject to the following investment restrictions in addition to the general investment restrictions set out in the Prospectus under the heading “Eligible Assets and Borrowing Restrictions” and in Appendix I to the Prospectus (“Permitted Investments and Investment Restrictions”) which are not dis-applied below:

- (i) the Fund may invest in open-ended CIS (including exchange traded funds registered as CIS), provided that:
 - not more than 20% of its Net Asset Value may be invested in any one CIS;
 - not more than 80% of its Net Asset Value in total may be invested in CIS; and
 - not more than 30% of its Net Asset Value in total may be invested in AIF CIS.
- (ii) the Fund may only invest in an open ended CIS which itself can invest no more than 10% of its net asset value in other CIS. However any investment by the Fund in other Funds of the Trust is limited further in that the Fund may only invest in Funds of the Trust that do not hold units in other Funds of the Trust. Accordingly although the Fund may invest in schemes that are managed by the Manager including other Funds of the Trust which in turn may also invest in other Funds of the Trust, those latter Funds may not cross-invest within the Trust;
- (iii) where the Fund invests in the units/shares of another CIS managed directly or by delegation by the Manager or by any other company with which the Manager is linked by common management or control the Manager or other company must waive the preliminary/initial/redemption charge which it is entitled to charge for its own account. Where the Manager invests the asset of the Fund in another sub-fund of the Trust (which itself may not hold units in any other sub-fund of the Trust), the rate of the annual management fee which Unitholders in the Fund may be charged in respect of that portion of the Fund's

assets invested in the other sub-fund of the Trust (whether such fee is paid directly at the Fund level, indirectly at the level of the other sub-fund or a combination of both) may not exceed the rate of the maximum annual management fee which Unitholders in the Fund may be charged in respect of the balance of the Fund's assets, such that there will be no double charging of the annual management fee to the Fund as a result of its investments in the other sub-fund. This provision is also applicable to the annual fee charged by an Investment Manager where that fee is paid directly out of the assets of the Fund. Where the Fund invests in the units/shares of another CIS managed by the Manager (other than another sub-fund of the Trust), the Manager must waive that portion of its annual fee for its own account. Where commission is received by the Manager or the Investment Manager by virtue of an investment in the units of another CIS, this commission must be paid into the property of the Fund;

- (iv) the Fund may not carry out sales of transferable securities when such securities are not in the ownership of the Fund;
- (v) in relation to non-equity securities (other than those issued by governments):
 - (a) any such securities in listed non-Approved Credit Institutions and non-government institutions shall be limited to a maximum of 10% of the Net Asset Value of the Fund per issuer;
 - (b) any such securities in unlisted non-Approved Credit Institutions and non-government institutions shall be limited to a maximum of 5% of the net asset value of the Fund per issuer and in total to a maximum of 10% of the Net Asset Value of the Fund; and
 - (c) any such securities issued by an Approved Credit Institution shall be limited to a maximum of 10% of the Net Asset Value of the Fund per issuer;
- (vi) the Fund may hold equity securities issued by any one issuer up to a maximum amount of 10% of the Net Asset Value of the Fund;
- (vii) save as contemplated in Section 10, the Fund will not be geared or leveraged through investment in the Asset Classes;
- (viii) over the counter derivative instruments including currency forwards, interest rate swaps and currency swaps are permitted for efficient portfolio management purposes. The Fund will ensure that over the counter derivative instruments are not used to leverage or gear the portfolio for investment

purposes;

- (ix) the Fund will not invest in exchange traded funds which are capable of obtaining leveraged exposure to underlying assets;
- (x) the Fund will not invest in an instrument that compels the physical delivery of a commodity or property and may not accept physical delivery of a commodity or property;
- (xi) in the unlikely event that the Fund engages in stock lending as contemplated in Section 10, stock lending shall be limited in total to 50% of the Net Asset Value of the Fund; and
- (xii) Without prejudice to the Fund's ability to enter into FDI for efficient portfolio management purposes as detailed herein, the Fund will not invest in synthetic instruments which derive their value indirectly from the underlying assets.

In addition, the Fund may invest a maximum of 10% of the Net Asset Value of the Fund in securities that are not listed or traded on a Recognised Exchange.

Investors should note that, subject to the requirements of the Central Bank, the Fund may invest in the other funds of the Manager and/or the Investment Manager where such investment is appropriate to the investment objective and policy of the Fund. Any commission received by the Manager and/or the Investment Manager in respect of such investment will be paid into the assets of the relevant sub-fund. In addition, no subscription fee or redemption fee may be charged on the Fund's cross investment.

In order to avoid double-charging of management and/or any performance fees where the Fund is invested in another sub-fund of the Manager and/or Investment Manager it may not charge an Investment Management Fee or Performance Fee in respect of that part of its assets invested in other sub-funds unless such investment in another fund is made into a Class of Units that does not attract any Investment Management Fee or Performance Fee. Investment may not be made by the Fund in a fund of the Manager and/or the Investment Manager which itself cross-invests in another sub-fund of the Manager and/or the Investment Manager.

The Fund may employ borrowings of up to a maximum of 10% of the Net Asset Value of the Fund to meet its obligations in relation to the administration of the Fund related to the settlement of buying and sale transactions and redemption or cancellation of Units. For the purpose of providing collateral, the Fund may from time to time secure such borrowings by pledging, mortgaging or charging the assets of the Fund.

10. Efficient Portfolio Management

The Fund may utilise FDI such as futures, options, CFDs, currency swaps, interest rate swaps and exchange rate swaps and when issued and/or delayed delivery securities for the purposes of efficient portfolio management. Such transactions may include foreign exchange transactions which alter the currency characteristics of transferable securities held by the Fund. Further details relating to the use of FDI for efficient portfolio management purposes are set out in Appendix III to the Prospectus.

The Fund may utilise only listed FDI, except in the case of currency and interest rate FDI, such as forward currency swaps, interest rate swaps and exchange rate swaps which can be traded over the counter. It is not intended to hedge against changes in the exchange rate between the Base Currency of the Fund and the designated currency of the underlying assets of the Fund. However, the Fund may employ forward currency contracts to alter the currency exposure of the underlying assets for risk management purposes.

Interest Rate And Exchange Rate Swaps

Interest rate and exchange rate swaps involve the exchange by the Fund with another party of their respective commitments to make or receive interest payments (e.g., an exchange of fixed rate payments for floating rate payments). On each payment date under an interest rate swap, the net payments owed by each party are paid by one party to the other.

Currency Swaps

Currency swaps are agreements between two parties to exchange future payments in one currency for payments in another currency. These agreements are used to transform the currency denomination of assets and liabilities. Unlike interest rate swaps, currency swaps must include an exchange of principal at maturity. Moreover, there are the “quanto” or “differential” swap. These combine both an interest rate and a currency transaction. Currency swaps can be used to transform the exposure to one currency against the exposure to another currency. This can be done for hedging purposes as well as gaining exposure to another currency.

Forward Currency Contracts

A forward contract locks in the price at which an asset may be purchased or sold on a future date. In forward foreign exchange contracts, the contract holders are obligated to buy or sell from another a specified amount of one currency at a specified price (exchange rate) with another currency on a specified future date. Forward contracts

cannot be transferred but they can be 'closed out' by entering into a reverse contract.

The commercial purpose of a forward foreign exchange contract may include, but is not limited to, altering the currency exposure of securities held, hedging against exchange risks, increasing exposure to a currency, and shifting exposure to currency fluctuations from one currency to another. Forward foreign exchange contracts are specifically useful and may be used for the hedging in connection with hedged currency classes of units.

Subject to the restrictions contained in Section 9 above, the Fund may use securities lending agreements for efficient portfolio management purposes only.

Although the use of FDI for efficient portfolio management purposes will give rise to an additional exposure, any such additional exposure may not exceed the Net Asset Value of the Fund. Accordingly the use of instruments and techniques for efficient portfolio management purposes may not result in the fund being leveraged in excess of 100% of the Net Asset Value of the Fund. Leverage will be calculated using the commitment approach. Furthermore, the Fund must at all times hold (i) liquid assets which are sufficient to cover the additional exposure arising from the use of FDI which are cash settled and (ii) where required in accordance with the Central Bank Requirements, hold the underlying assets of FDI that are not cash settled in order to cover the additional exposure arising from the use of such FDI.

The use of derivative instruments for the purposes outlined above may expose the Fund to the risks disclosed under the headings "Derivatives and Techniques and Instruments Risk" and "Currency Risk" in the Risk Factors Section of the Prospectus. The Manager expects that the use of FDI by the Fund may result in a low impact on the performance of the Fund in relation to its investment objectives and policies.

The Manager will employ a risk management process which will enable it to monitor, manage and measure the risks attached to financial derivative positions and details of this process have been provided to the Central Bank. In accordance with the Central Bank Requirements, the Fund may be leveraged through its investment in FDI of up to 100% which will be measured using the commitment approach. The Fund will not utilise FDI which have not been included in the risk management process until such time as a revised risk management process has been submitted to the Central Bank. The Manager will provide on request to Unitholders supplementary information relating to the risk management methods employed by the Fund including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

11. Leverage and Global Exposure

The Fund will ensure that its use of FDI as contemplated in Section 11 and 13 will not result in the Fund having global exposure in excess of its Net Asset Value. Accordingly, the Fund will not be leveraged or geared by its use of FDI if this results in global exposure in excess of its Net Asset Value. The global exposure of the Fund as a result of its use of FDI will be measured using the commitment approach and the maximum global exposure will be 100%. The Fund's total exposure to any instrument shall be limited to the extent of that instrument, i.e. the Fund shall not have any additional incremental exposure or leveraged exposure as a result of such investment.

12. Securities Financing Transactions and Equity Swaps

The Fund may in accordance with the provisions of section 10 above engage in securities financing transactions SFTs and equity swaps, as described under "Repurchase / Reverse Repurchase and Stock-Lending Arrangements for the Purposes of Efficient Portfolio Management" and "Financial Derivative Instruments". The types of assets that will be subject to securities financing transactions and equity swaps will be equity securities.

Further details on SFTs are set out in the Prospectus under the headings "Securities Financing Transactions and Equity Swaps", "Collateral Policy" and "Counterparty Selection Process".

13. Distributions

It is not intended to declare any distributions.

14. Fees

In addition to the general management and fund charges set out in the Prospectus under the heading "Fees and Expenses" the following fees and expenses are payable out of the Fund.

The Manager

Annual Fee

The Manager will be entitled to an annual fee, accrued daily and payable monthly in arrears, at a rate of 1.25% of the Net Asset Value of the Fund attributable to Class A (plus VAT, if any) and at a rate of 0.85% of the Net Asset Value attributable to Class P and Class S (plus VAT, if any).

The annual fee payable to the Manager in respect of any present or future Class of Units shall not exceed 5% per annum of the Net Asset Value of the Fund attributable to that Class. Such maximum fee may not be increased without the approval of Unitholders of the relevant Class.

No annual management fee will be attributable to the Class Z Units.

Net realised and unrealised capital gains plus net realised and unrealised capital losses as of the relevant Valuation Point shall be taken into account in calculating the NAV per Unit. As a result, management fees may be paid on unrealised gains which may subsequently never be realised.

This Supplement will be updated prior to the implementation of any change in the management fee payable to the Manager as set out above.

Unitholders in the relevant Class will be given reasonable notice of any increase in the management fee to enable them to redeem their Units prior to implementation of such a change.

The Administrator

The Manager will pay to the Administrator, out of the assets of the Fund an annual aggregate fee, accrued at each Valuation Point and payable monthly in arrears, at a rate of up to 0.025% of the Net Asset Value of the Fund (plus VAT, if any), plus additional fees related to the complexity of the Fund (e.g., number of classes), subject to a minimum annual fee. The minimum annual fee is US\$50,000, and applies pro rata to the Fund based on Net Asset Value when the aggregate fee in respect of all Funds under the agreement is less than US\$50,000 times the number of Funds under the agreement.

In addition, the Administrator will be paid out of the assets of the Fund fees for maintaining investor records. The Administrator shall be entitled to be repaid out of the assets of the Fund such expenses provided for in the “Fees and Expenses” section of the Prospectus.

The Trustee

The Manager shall pay to the Trustee out of the assets of the Fund an annual fee in respect of the trustee and depositary services provided by it to the Fund, which fee shall accrue at each Valuation Point and be payable in arrears on a monthly basis, at a rate which will not exceed 0.0284% of the Net Asset Value of the Fund (plus VAT, if any).

Safekeeping fees for depositary services will vary from market to market, and will tend to be higher in less developed markets. Depositary fees will also include event based transaction fees and value based safekeeping fees.

The Trustee shall be entitled to be repaid out of the assets of the relevant Fund all of its disbursements which shall include legal fees, courier's fees, telecommunication costs and expenses and the fees (where applicable) and out-of-pocket expenses of any sub-custodians appointed by the Trustee which will be at normal commercial rates.

The Trustee shall also be entitled to be repaid out of the assets of the Fund such other expenses provided for in the "Fees and Expenses" section of the Prospectus.

The Administrator and the Trustee form part of the same group which allows the Manager the benefit of negotiating fee rates based on the holistic service offering. This Supplement will be updated prior to the implementation of any increase in the maximum fee payable to the Administrator and/or the Trustee as set out above as determined on an aggregated basis, save for annual inflationary escalations measured in accordance with the Central Statistics Office Consumer Price Index. Unitholders will be given reasonable notice of increases to the maximum aggregate administration and trustee fees, other than the aforementioned annual inflationary increases, to enable Unitholders to redeem their Units prior to implementation of such a change or, if such prior notice is not possible, then as soon as reasonably possible after the change.

The Investment Manager

The Manager will pay to the Investment Manager out of the Manager's annual fee as opposed to out of the assets of the Fund an annual fee (plus VAT, if any), accrued daily and payable monthly in arrears. The Investment Manager shall be responsible for discharging from its annual fee, the fees and all reasonable and properly vouched out-of-pocket expenses (plus VAT, if any) of any Sub-Investment Manager appointed by the Investment Manager with the approval of the Manager and in accordance with the requirements of the Central Bank.

Voluntary Expense Cap

To the extent that certain operating expenses (the "Qualifying Expenses") exceed 0.20% per annum (the "Cap Rate") of the average market value of the Fund (the "Voluntary Expense Cap"), over the VEC Calculation Period (as defined in this paragraph), the Manager shall be responsible for and reimburse the Fund in the amount of such excess, with such obligation arising from the time that the Voluntary Expense Cap is introduced. The calculation period for the Voluntary Expense Cap shall

comprise each successive twelve month period in each financial year of the Fund (each a “VEC Calculation Period”), provided that the next VEC calculation period will date from the most recent anniversary of the introduction of the Voluntary Expense Cap to the last day of the financial year of the Fund. The Voluntary Expense Cap will be calculated as the Cap Rate multiplied by the average market value over the VEC Calculation Period. Where the Qualifying Expenses (i.e. all expenses other than management fees, the cost of buying and selling assets, including brokerage and any anti-dilution levies charged, and interest) incurred during the VEC Calculation Period exceed the Voluntary Expense Cap at the calculation date (being the last Valuation Day of the VEC Calculation Period), the Manager will inject the excess amount into the Fund. The excess amount will be payable in arrears at the end of the VEC Calculation Period and therefore actual operating expenses incurred by the Fund could exceed the Voluntary Expense Cap at other points during the VEC Calculation Period. As stated above, Qualifying Expenses will include all operating expenses other than management fees, the cost of buying and selling assets (including brokerage and any anti-dilution levies charged) and interest.

The Voluntary Expense Cap shall apply in respect of each VEC Calculation Period until such time as at the sole discretion of the Manager, the Voluntary Expense Cap is removed, provided that Unitholders will be given reasonable notice prior to such removal to enable them to redeem their Units if they wish.

Anti-Dilution Levy

The Manager reserves the right to impose “an anti-dilution levy” representing a provision for market spreads (the difference between the prices at which assets are valued and/or bought or sold), and other dealing costs (“Dealing Costs”) relating to the acquisition or disposal of assets in the event of receipt for processing of net subscription or net redemption requests exceeding 5% of the Net Asset Value of the Fund (including subscriptions and/or redemptions which would be effected as a result of requests for conversion from one Fund into another Fund). Any such levy will be deducted from the subscription amount received as a separate charge in the case of net subscription requests exceeding 5% of the Net Asset Value of the Fund and deducted from the redemption proceeds to be paid in the case of net redemption requests exceeding 5% of the Net Asset Value of the Fund (including subscriptions and/or redemptions which would be effect as a result of requests for conversion from one Fund into another fund). The anti-dilution levy will be paid into the Fund and become part of the property of the Fund and is designed to protect both the value of the Fund’s underlying assets, and the current Unitholders’ interests in the Fund.

Redemption and Subscription Charges

The Manager shall be entitled to charge an investor a subscription and redemption

charge of up to 5% of the value of any subscription/redemption amount provided that the Manager can waive the subscription or redemption fee in relation to any investor in its sole discretion. Any redemption charge imposed by the Fund will not exceed 3% of the value of any redemption amount.

15. Risk Factors

Potential investors should consider the risks referred to in the “Risk Factors” section of the Prospectus.

16. Redemption of Units

All redemption requests must be received by the Administrator prior to 12.00 noon (Irish time) on the relevant Dealing Day, except in the case of the Class S Units for which redemption requests must be received by the Administrator prior to 5.00 p.m. (Irish time) on the relevant Dealing Day.

The redemption price will normally be payable to the Unitholder within three Business Days after the deadline for receipt of redemption requests.

17. Publication of Net Asset Value

The most up-to-date Net Asset Value per Unit will be published on www.bloomberg.com and updated following each calculation of the Net Asset Value. The relevant Bloomberg Code for each Unit Class is as follows:

Unit Class	Bloomberg Code
Class A	CORGEAU ID
Class P	CORGEPU ID
Class S	CORGESU ID
Class Z	CORGEZU ID

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Coronation Global Equity Select Fund
Legal entity identifier: 549300OPUMH57GVJ0B94

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It will make a minimum of sustainable investments with an environmental objective: ____% <div style="margin-left: 40px;"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy </div> <input type="checkbox"/> It will make a minimum of sustainable investments with a social objective: ____%	<input type="checkbox"/> It promotes Environmental/Social (E/S) characteristics and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ____% of sustainable investments <div style="margin-left: 40px;"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective </div> <input checked="" type="checkbox"/> It promotes E/S characteristics, but will not make any sustainable investments

What environmental and/or social characteristics are promoted by this financial product?

The Fund promotes the following environmental characteristics:

Greenhouse Gas Emissions Reduction; Climate Change Mitigation: The transition away from fossil fuels and the reduction of toxic emissions through the exclusion of companies that engage in specific carbon-intensive activities relating to the extraction or consumption of fossil fuels that cause material harm to the environment.

The Fund promotes the following social characteristics:

1. Social Sustainability: The protection and advancement of human rights, labour rights and anti-corruption practices through the exclusion of companies that do not satisfactorily align with the principles of the UN Global Compact.
2. Good Health and Wellbeing; Human Rights: Health and safety-related standards through the exclusion of companies that are engaged in activities related to the production and distribution of tobacco and of controversial weapons.

In order to promote these environmental and social characteristics, the Investment Manager applies a binding set of sector-based and conduct-based exclusions when determining investments to be made. The Manager and the Investment Manager have adopted the Exclusion Policy of Coronation Fund Managers Limited ("**Coronation**"), which can be found at the link set out in the response below to the question "Where can I find more product specific information online".

The Exclusion Policy requires exclusion of investment in companies that derive a material part of their annual revenue from activities that are generally regarded as causing material environmental or societal harm, including:

- the mining and extraction of thermal coal;
- the production of coal-based power;
- the extraction of oil from tar sands;
- the production or distribution of controversial weapons; and
- the production or distribution of tobacco and tobacco products.

The following table sets out the annual revenue thresholds that apply to each of the sector-based exclusions:

Sector	Revenue Threshold per annum
Tobacco production	20%
Tobacco supply, distribution or licensing	25%
Controversial weapons	10%
Thermal coal mining and extraction	30%
Coal-based power	20%
Oil from tar sands	10%

As noted above, where a company's annual revenue exceeds the "Revenue Threshold" for a specific sector, then that company will be excluded from the investment universe of the Fund, unless there is reasonable sufficient evidence to indicate that the relevant company will not remain in breach of the Revenue Threshold going forward.

The Fund shall also seek exposure to companies that adhere to internationally accepted standards for human rights, labour rights (including the abolition of child labour) and environmental practices.

A reference benchmark has not been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund.

● ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

As part of the investment process, the sustainability indicator that the Manager considers to measure the environmental and/or social characteristics promoted by the Fund is the integration of the Exclusion Policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The following sustainability indicators are used to measure the success of the Investment Manager's approach to the promotion of environmental and social characteristics:

Environmental Characteristics:

- Number and percentage of investments where the revenue that is derived from the mining and extraction of thermal coal exceeds the Revenue Threshold for that activity (as defined in the Exclusion Policy*);
- Number and percentage of investments where the revenue that is derived from the production of coal-based power exceeds the Revenue Threshold for that activity (as defined in the Exclusion Policy);
- Number and percentage of investments where the revenue that is derived from the extraction of oil from tar sands exceeds the Revenue Threshold for that activity (as defined in the Exclusion Policy).
- Carbon emissions profile of the Fund **, including:
 - Absolute carbon emissions and equivalents (Scope 1 and 2)***
 - Carbon footprint and equivalents (Scope 1 and 2)
 - Weighted average carbon intensity (and equivalents) (Scope 1 and 2)

Social Characteristics:

- Number and percentage of investments where the revenue that is derived from the production or distribution of controversial weapons exceeds the Revenue Threshold for that activity (as defined in the Exclusion Policy).
- Number and percentage of investments where the revenue that is derived from the production or distribution of tobacco and tobacco products exceeds the Revenue Threshold for that activity (as defined in the Exclusion Policy).
- Number and percentage of investments that have been flagged as not adhering to the ten principles of the United Nations Global Compact ("UNGC") and where meaningful action is not being taken to address the related concerns (as defined in the Exclusion Policy).

For more details on the exclusions that apply to this Product, please refer to the Exclusion Policy which can be found at the link set out in the response below to the question "Where can I find more product specific information online".

* Exclusions are applied in accordance with the Exclusion Policy. The Investment Manager will apply the Exclusion Policy to determine which securities meet the Exclusion Criteria, and must therefore be excluded from the investment universe of the Product.

** The Product does not have specific carbon emissions targets and may exhibit an emissions profile that increases over time or is higher than a comparable benchmark. The exclusion of specified activities relating to the production or consumption of fossil fuels is expected to have a positive impact on the Product's emissions profile.

*** Scope 1 emissions are carbon emissions produced directly by a company's activities. Scope 2 emissions are carbon emissions related to the electricity that a company consumes.

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

Not applicable

- ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

— *How have the indicators for adverse impacts on sustainability factors been taken into account?*

Not applicable

— *How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable

Does this financial product consider principal adverse impacts on sustainability factors?

☐ Yes, _____

☒ No

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What investment strategy does this financial product follow?

The Fund is an actively managed financial product that aims to produce above average long term returns primarily through investment in equities and equity-related securities in global markets and in collective investment schemes that have exposure to equities and equity-related securities in global markets.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

The Fund's return is measured against the MSCI Daily Total Return ACWI USD Index. The investment objective is achieved by investing at least 80% of its assets in equities and equity-related securities (such as warrants, convertible preference shares and convertible bonds) of companies listed or traded on a Recognised Exchange and collective investment schemes as set out above.

The Investment Manager follows a long-term valuation-driven investment strategy that is designed to identify and invest in securities that are expected to generate superior risk-adjusted investment returns over the long term. To achieve this, the Investment Manager performs ongoing fundamental research into the long-term prospects of each of the securities that it researches, including engaging with companies to gain a better understanding of their business prospects and risks.

The Investment Manager applies a long-term investment approach which allows it to evaluate and invest in securities over long time horizons (typically 5 years and longer). The investment opportunities that are identified through the research process are combined into a portfolio of securities that aims to achieve the investment objective of the Fund. During the life of an investment, ESG factors are monitored on an on-going basis as part of the Investment Manager's investment process.

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

ESG sectoral and conduct exclusion policy

The Fund is required to adhere to the Exclusion Policy adopted by the Manager. To ensure that the environmental and social characteristics promoted by the Fund can be attained, the Fund will apply the Exclusion Policy referenced above.

For more details on the exclusions that apply to this Fund, please refer to the Exclusion Policy which can be found at the link set out in the response below to the question "Where can I find more product specific information online".

- ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

Not applicable

- ***What is the policy to assess good governance practices of the investee companies?***

The Investment Manager aims to ensure that the companies in which the Fund invests maintain high standards of governance, including sound management structures, employee relations, remuneration of staff and tax compliance. Companies are evaluated across a wide array of matters relating to governance. These include the composition, strength and independence of the board, executive compensation and alignment of interests, as well as ethical conduct, anti-corruption practices and the management of conflicts of interest. Practices relating to capital allocation, the protection of shareholder rights and third-party assurance and reporting are also evaluated. The Investment Manager seeks transparency, engagement and comprehensive reporting, as this provides the information basis to assess whether a company adheres to high standards of corporate governance and integrates ESG considerations. Engagement with investee management and board of directors can be by way of telephone calls, online interactions, in-person meetings, letters and written statements.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

The Fund is also required to exclude investment into any company that is considered to be engaged in practices that cause or could result in material harm to the environment and/or have a material negative societal impact, taking the ten principles of the UNGC into account.

Please refer to Coronation's ESG Policy, Proxy Voting Policy and latest annual Stewardship Report, all of which are available at the link set out in the response below to the question "Where can I find more product specific information online", for more information on how the governance practices of investee companies are incorporated into the investment process.

Asset allocation describes the share of investments in specific assets.

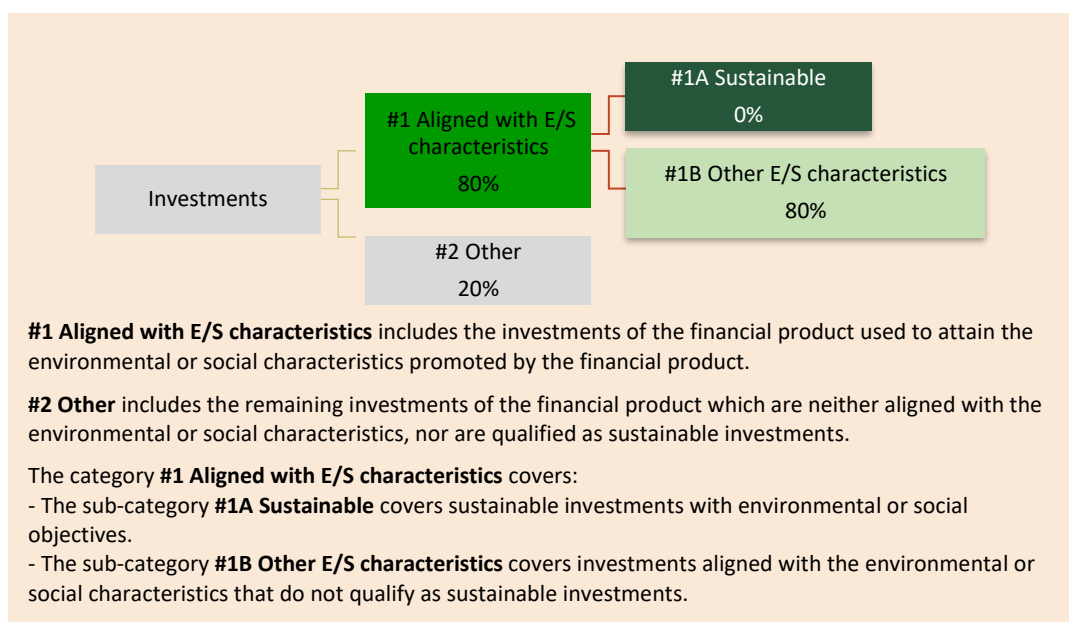

What is the asset allocation planned for this financial product?

The Fund aims to hold a minimum of 80% investments that are aligned with the environmental or social characteristics promoted by the Fund. The Fund aims to hold a maximum of 20% investments that are not aligned with the environmental or social characteristics promoted by the Fund and are not sustainable investments, and which fall into the 'other' section of the Fund.

Please note that while the Investment Manager's aim is to achieve the asset allocation targets outlined above, these figures may fluctuate during the investment period and ultimately, as with any investment target, may not be attained.

The Fund does not commit to holding sustainable investments. The Investment Manager does not assess whether a security is Taxonomy-aligned prior to investing in that security. Any investments held by the Fund that are Taxonomy-aligned are incidental and not a result of a deliberate decision to invest in Taxonomy-aligned securities.

The exact asset allocation of the Fund will be reported in the Fund's mandatory periodic report SFDR template, for the relevant reference period.

How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?

Whilst the Fund may use derivatives for efficient portfolio management purposes as more fully set out in the Prospectus and the Supplement, such derivatives are not used for the purposes of attaining the environmental and social characteristics promoted by the Portfolio.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

- Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Not applicable. The analysis and disclosure requirements introduced by the Taxonomy Regulation are very detailed and compliance with them requires the availability of multiple, specific data points in respect of each investment which the Fund makes. The Manager is not committing that the Fund will invest in investments that qualify as environmentally sustainable for the purposes of the Taxonomy Regulation. As such, the minimum proportion of the Fund's investments that contribute to environmentally sustainable economic activities for the purposes of the Taxonomy Regulation will be 0%. It cannot be excluded that some of the Fund's holdings qualify as Taxonomy-aligned investments. Disclosures and reporting on Taxonomy alignment will develop as the EU framework evolves and data is made available by issuers.

- What is the minimum share of investments in transitional and enabling activities?**

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?
Not applicable.

What is the minimum share of socially sustainable investments?
Not applicable as the Product does not commit to invest in sustainable investments.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

“Other” includes the remaining investments of the Fund which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The “Other” section in the Fund is held for a number of reasons that the Investment Manager feels will be beneficial to the Fund, such as, but not limited to, achieving risk management, and/or to ensure adequate liquidity, hedging and collateral cover.

The Fund may hold cash or other fixed income instruments for any of the purposes set out in the Fund’s Investment Policy. In accordance with this policy, these instruments are expected to comprise a small percentage of the overall market value of the Fund. The Investment Manager may not promote ESG characteristics in respect of these investments.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

Not applicable.

- ***How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?***

Not applicable.

- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***

Not applicable.

- ***How does the designated index differ from a relevant broad market index?***

Not applicable.

- ***Where can the methodology used for the calculation of the designated index be found?***

Not applicable.

Where can I find more product specific information online?

Product factsheets, PRIIPs KIDs and other literature can be found on Coronation’s website at www.coronation.com.

More product-specific information can be found on the website:

<https://www.coronation.com/en/institutional/about-us/SustainabilityRelatedDisclosure>
